

## **NSIL and ARIANESPACE sign an MoU for Long-term partnership to support Satellite Launch missions**

**January 29, 2024:**

M/s NewSpace India Limited (NSIL), a Government of India (GoI) company under Department of Space (DoS) and the commercial arm of ISRO, and French satellite launch company M/s Arianespace, have entered into an Memorandum of Understanding (MoU) aiming at establishing a long-term partnership between the two companies to meet the Global commercial satellite launch service market needs.

As part of MoU, the heavy lift launch vehicle LVM-3 of NSIL/ ISRO and Ariane-6 of M/s Arianespace would address Global launch service market needs, meeting the demand for launching heavier communication / earth observation satellites as well as satellites for mega constellations. Global Launch service market assessment for the decade indicates huge demand for launching satellites in GTO and in LEO.
